PUBLIC HEALTH REPORTS.

UNITED STATES.

[Reports to the Surgeon-General United States Marine-Hospital Service.]

A case of smallpox and a case of scarlatina on the transport Meade.

[Telegram.]

ANGEL ISLAND, CAL., March 4, 1902.

Transport *Meade* sailed from here Saturday last, returned last night; 1 case smallpox, 1 case scarlatina. Will vaccinate personnel, disinfect ship and effects. Third day exposure, all personnel probably exposed.

CUMMINGS.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

Inspection service at Eastport, Me.

EASTPORT, ME., February 27, 1902.

SIR: I beg to submit the following report of work done at this inspection station during the week ended Thursday, February 27, 1902:

Vessels inspected.

Date.	Vessel.	From.	For.	Crew.	Passengers.	
					For Eastport.	In transit.
Feb. 21	Ss. Mary F. Pike.....	New York.....	Eastport.....	5
Do....	Ss. Aurora.....	St. Stephen, New Brunswick.	Eastport and Grand Manan, New Brunswick.	8	6	4
Feb. 25	Ss. St. Croix.....	Boston and Portland.	Eastport and St. John, New Brunswick.	61	34	18

Feb. 27	Ss. H. F. Eaton.....	Calais.....	Eastport.....	10	7
Do....	Ss. St. Croix.....	St. John, New Brunswick.	Eastport and Boston.....	61	6	23

Owing to the growth of smallpox in Portland, Me. (16 cases having been reported), I am subjecting the steamers arriving here from that city to a rigid inspection. The health of Eastport is good.

Respectfully,

EDWARD M. SMALL,
Acting Assistant Surgeon, U. S. M. H. S.

EASTPORT, ME., March 6, 1902.

SIR: I beg to submit the following report of work done at this inspection station during the week ended Thursday, March 6, 1902:

Vessels inspected.

Date.	Vessel.	From.	For.	Crew.	Passengers.	
					For East-port.	In transit.
Feb. 28	Ss. Aurora.....	St. Stephen, New Brunswick.	Eastport and Grand Manan, New Brunswick.	8	2	2

Mar. 6	Ss. H. F. Eaton.....	Calais, Me.....	Eastport.....	10	14
Do.....	Ss. St. Croix.....	St. John, New Brunswick.	Portland and Boston.....	61	8	44

The American consul at St. John, New Brunswick, now gives the steamers a clean bill of health, reporting no cases of smallpox in the city. The travel from Boston and Portland is increasing, necessitating a strict inspection of steamers arriving here from those cities.

Respectfully,

EDWARD M. SMALL,
Acting Assistant Surgeon, U. S. M. H. S.

Inspection service at Vanceboro, Me., and vicinity.

VANCEBORO, ME., March 3, 1902.

SIR: For the week ended March 1, I have inspected approximately 500 passengers, of whom I vaccinated 50, chiefly second-class travel from north shore of New Brunswick, which is now about the only portion of the province which contains smallpox. St. John, Moncton, and Baillie or Lynnfield are now practically free from the disease. Some new cases have developed during the week about Campbellton and Bathurst, necessitating the quarantine and disinfection of railway cars, quarantine of hotels, etc. From that section we are now getting a heavy travel, and I consider that all these, especially the second-class, should be vaccinated before being admitted.

Respectfully,

M. L. YOUNG,
Acting Assistant Surgeon, U. S. M. H. S.

*Arrival at Reedy Island quarantine of vessel from Mexican port.*REEDY ISLAND QUARANTINE,
via Port Penn, Delaware, March 1, 1902.

SIR: Through the medical officer in command of national quarantine service on Delaware Bay and River, I have the honor to report the arrival at this station on February 23, 1902, of the British steamship *Suwanee*, from Vera Cruz, in ballast; no passengers; bill of health signed by Wm. W. Canada, United States consul, and S. H. Hodgson, medical inspector, U. S. Marine-Hospital Service.

Respectfully,

T. F. RICHARDSON,
Assistant Surgeon, U. S. M. H. S., in Command.

Arrival at Baltimore of vessels from West Indian and South American ports.

BALTIMORE, MD., March 8, 1902.

SIR: I have to report the arrival of the following vessels at this port for the week ended to-day: March 3, British steamship *Virginia*, from Pisagua, Chile, with nitrate of soda; British steamship *Yestor*, from Daiquiri, Cuba, with ore. March 4, Norwegian steamship *Herman Wedel Jarlsberg*, from Daiquiri, Cuba, with ore; American barkentine *Frances*, from Rio de Janeiro, with coffee.

Respectfully,

T. E. CUNNINGHAM,
Special Deputy Collector.

FOREIGN AND INSULAR.

AFRICA.

No plague at Magude, Lourenço Marques.

LOURENÇO MARQUES, AFRICA, *January 21, 1902.*

SIR: I have the honor to refer to my dispatch No. 218 of November 19, 1901, in relation to the plague, and to advise you that the secretary-general of Mozambique has just written to me as follows:

"In addition to the circular of this general office, No. 57 of November 18, last year, I have the honor to communicate to you by order of his excellency, counsellor government-general, that seeing that there has not been a single case of plague in Magude since the 15th of last month, and considering that the sanitary service there is conducted in a manner to cause us not to expect to hear, in the future, of more cases of the plague, the board of health of the district of Lourenço Marques, at a meeting on the 8th instant, has decided to issue clean bills of health without any observations whatever."

Respectfully,

W. STANLEY HOLLIS,
United States Consul.

HON. ASSISTANT SECRETARY OF STATE.

CHINA.

Reports from Hongkong.

HONGKONG, CHINA, *January 27, 1902.*

SIR: I have the honor to transmit herewith the abstract of bills of health issued at this station during the week ended January 25, 1902. Nine vessels were inspected during the week. 536 individuals were bathed at the disinfecting station, and 560 bundles of clothing and bedding were disinfected by steam. There were 2 rejections because of fever. I also inclose under same cover a clipping from the Hongkong Daily Telegram, containing the recommendations of Professor Simpson, a sanitary expert from Calcutta, at present investigating the sanitary needs of the city at the instance of the local government, with reference to more successfully meeting the annual plague epidemic.

But 1 case of communicable disease was reported in the colony during the week, a case of diphtheria occurring in the city of Victoria.

Thus far this year there has been but 1 case of plague with 1 death. For the same period last year there were 7 cases and 7 deaths.

The mortality returns for the month of December, 1901, show 573 deaths from all causes, corresponding to an annual death rate of 23.2 per 1,000, excluding the army and navy. The death rate among the British and foreign population was 22.5 per 1,000, among the Chinese land population 23.4 per 1,000, and among the boat population 22 per 1,000. Of the total number of deaths, 3 were due to enteric fever. 1 to dengue, 14 to diarrhea, 4 to dysentery, and 2 to bubonic plague. Fifty-nine were due to malaria, 38 to beriberi, 48 to general tuberculosis, 47 to bronchitis, 41 to pneumonia, and 70 to phthisis.

Respectfully,

JOHN W. KERR,
Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

*Plague at Shuitung.*CANTON, CHINA, *January 23, 1902.*

SIR: I learnt this morning that the bubonic plague has broken out at Shuitung, and considerably over 100 natives have already died of it. I promptly cabled you as follows:

SECRETARY OF STATE, *Washington, D. C.*: Over 100 deaths of plague at Shuitung, 250 miles south of Canton.—MCWADE.

Shuitung is an unwall'd town of about 30,000 inhabitants lying on an open bay just off the seacoast, and is about 250 miles to the south of Canton. It is the shipping center for the surrounding country, but has never yet been open to foreign traffic. Four steam launches carrying passengers and freight make regular trips between it and Canton. The plague works fearful havoc there every year and owing to the utter absence of sanitary arrangements of any kind, it has at least several thousand of victims annually. No reliable statistics of the mortality however, can be obtained from native official sources.

There are no cases of plague at Canton.

Respectfully,

ROBERT M. MCWADE,
United States Consul.

HON. ASSISTANT SECRETARY OF STATE.

Other deaths from cholera at Canton.

DEPARTMENT OF STATE,
Washington, D. C., March 6, 1902.

SIR: I have the honor to inform you that the following telegram has been received from the consul at Canton, China, announcing the death from cholera of Thomas Stephenson, senior officer of the Customs Service:

CANTON, CHINA, *March 5, 1902.*

SECRETARY OF STATE, *Washington, D. C.*: Thomas Stephenson, American citizen, senior officer of the Customs Service, died here today. Cholera.—MCWADE.

Respectfully,

JOHN HAY,
Secretary of State.

HON. SECRETARY OF THE TREASURY.

DEPARTMENT OF STATE,
Washington, D. C., March 7, 1902.

SIR: I have the honor to advise you, for the information of the U. S. Marine-Hospital Service, that the following telegram has been received from the consul at Canton, China, reporting the spread of cholera:

CANTON, CHINA, *March 6, 1902.*

SECRETARY OF STATE, *Washington, D. C.*: Cholera increasing; another European died today. Customs Club closed. Employees ordered live boats on river.—MCWADE.

Respectfully,

JOHN HAY,
Secretary of State.

HON. SECRETARY OF THE TREASURY.

CUBA.

Reports from Cienfuegos, Casilda, and Santa Cruz del Sur.

CIENFUEGOS, CUBA, March 3, 1902.

SIR: Through the chief quarantine officer for the island of Cuba, I have the honor to transmit the following report of the transactions in the district under my command, for the week ended March 1, 1902:

Eighteen deaths have occurred in this city. Of these, 2 occurred in the civil hospital. Causes of death as follows: Tuberculosis, 4; paludism, 2; sclerosis, arterial, 2; nephritis, 2; uræmia, 1; meningitis, 1; gastro-enteritis, 1; tetanus, infantile, 1; measles, 1; tetanus, 1; bronchitis, 1; hemorrhage, cerebral, 1. Death rate per 1,000 inhabitants, 23.46. Several cases of measles reported during past few days; am investigating and will report on same in next week's report. Thirteen vessels inspected and passed, granted pratique; 3 vessels boarded and passed; 2 vessels admitted without inspection; 19 bills of health issued vessels leaving this port, and 5 alien steerage passengers landed after inspection.

Casilda.—Acting Asst. Surg. A. Cantero reports 3 deaths in the city of Trinidad. No contagious diseases reported. Ten vessels inspected and passed, granted pratique; 7 bills of health issued vessels leaving that port, and no alien steerage passengers landed at that port.

Santa Cruz del Sur.—Acting Asst. Surg. P. M. Quevedo reports no deaths at that port during the week ended February 22, 1902. Seven vessels inspected and passed, granted pratique; 9 vessels given bills of health upon leaving that port, and no alien steerage passengers landed at that port.

Following is a recapitulation of the weekly reports of this district transmitted during the month of February, 1902:

Cienfuegos.—Fifty-seven deaths have occurred in this city. Of these, 9 occurred in the civil hospital. Fifty-three vessels inspected and passed, granted free pratique; 6 vessels boarded and passed; 9 vessels admitted without inspection. One thousand five hundred and eighty members of crews of vessels inspected and passed; 557 passengers inspected and passed; 19 alien steerage passengers inspected and allowed to land; 60 bills of health issued vessels leaving this port.

Casilda.—Sixteen deaths in the city of Trinidad. No contagious diseases reported. Forty-four vessels inspected and passed, granted free pratique; 41 bills of health issued vessels leaving that port; no alien steerage passengers landed at that port.

Santa Cruz del Sur.—Month from January 25 to February 22. One death at that port. Several cases of chicken pox reported in that vicinity, but no deaths. Twenty-three vessels inspected and passed, granted free pratique; 24 bills of health issued vessels leaving that port; no alien steerage passengers landed at port.

Respectfully,

FELIX GIRALT,

Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

Inspection at Palermo.

At Palermo for the week ended February 15, 1902, the following ships were inspected:

February 14, the steamship *Tortar Prince*, of the Prince Line, bound with passengers and cargo for New York. There were inspected and passed 105 steerage passengers and 40 pieces of large and 160 pieces of small baggage; 20 pieces of baggage were disinfected by steam.

February 15, the steamship *Vincenzo Bonanno*, of the Bonanno Line, bound with passengers and cargo for New York.

Smallpox at Naples.

During the week ended February 15, 1902, there were officially reported at Naples 11 cases of smallpox with no deaths.

Smallpox in the province of Benevento.

It is reported that there are at Baseline, province of Benevento, 176 cases of smallpox in a population of 4,000 inhabitants. There is a large emigration from this province to the United States. All precautions, such as vaccination, careful physical examination, and disinfection of all effects are being rigidly enforced.

Respectfully,

J. M. EAGER,

Passed Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

NAPLES, ITALY, February 24, 1902.

SIR: I have the honor to report that for the week ended February 22, 1902, the following ships were inspected at Naples:

February 18, the steamship *Trave*, of the North German Lloyd Steamship Company, bound with passengers and cargo for New York. There were inspected and passed 770 steerage passengers and 40 pieces of large baggage; 1,000 pieces of baggage were disinfected by steam.
